

Felixgen Life Science Solutions Limited (FELIXGEN LSS) is new pharmaceutical company in Bangladesh. FELIXGEN LSS mainly focused on the production and marketing of Ayurveda, Herbal & Stem-cell related products to replace traditional antibiotics with the natural probiotics. Currently they don't have any computer based automated system to keep track of their ingredients, produced medicines, inventory and marketing and selling information. The CEO of **FELIXGEN LSS** Mr. Mesbah appointed you to develop new inventory and representative management system. where you have to focus on-

- Easy, effective and beautiful computer application
- Accessible from anywhere over the Internet
- Employee management
- Purchase management for their ingredients
- Inventory management
- Marketing representatives and their performance management
- Medicine selling

The CEO wanted you to perform a detailed analysis and make a plan to incorporate the solution. You may choose any hypothetical role regarding to solution development team as you want and also complete the project within 4 months.
